Infinite autonomy

To continuously remove waste, making it easier to manage and operate.

High performance

Maximum power

•**Latest Brushless** generation engine.
•**Speed Control System:** it maintains a constant speed providing more power when necessary.
•Speed selector: 2 speeds to adapt the power to the hardness of the fruit and vegetables.
Maximum performance with its 3500 rpm and 4500 rpm.
•Very silent (less than 70 dB) and stable, thanks to its **Silent-Block** antivibration system.

Maximum performance

•Position 0: permits saving energy, by putting the juicer on **Stand-by** while it is not in use
•Ergonomic Pusher and a broad opening of up to **75 mm** for all types of fruit and vegetables.
•Non-drip rotating tap and new removable tray, with optimized design, a cleaner way of collecting the drops.
•Filter-grating disc unit that can be removed without using tools, **center design** for efficient centrifuge and filtering.
•Integrated large capacity waste bucket **13 L** (3.43 gal.)
•Pulp-free high quality juice in **5 seconds**.
