EASYSTAND

ELECTRIC KETTLE ON A STAND

GENERAL CHARACTERISTICS

- Nominal content: 40, 60, 80, 100 and litres
- Kettle bowl in 316 acid resistant steel, all other parts in 304 stainless steel
- Fully welded, insulated kettle body with a volume scale inside the kettle
- Working pressure: 1,0 bar
- Max. steam temperature: 120° C
- Integrated isolator switch
- Pressure gauge
- Unheated top for lower energy waste and better comfort
- Hinged easy open/close lid with an ergonomic lid arm
- Lid made from stainless steel
- Maximum temperature on the outside of the kettle bowl after 3 hours cooking: <40°C
- Working height: 900 mm
- Electrically heated kettles have automatic filling of water in the steam generator
- Spray gun

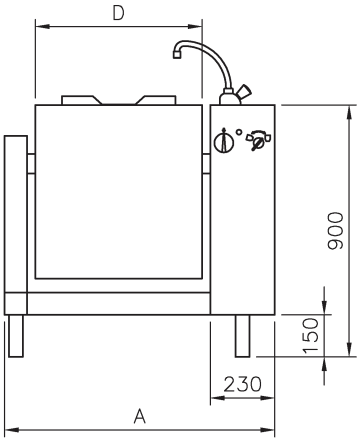

CONTROL AUTOTEMP 02 E

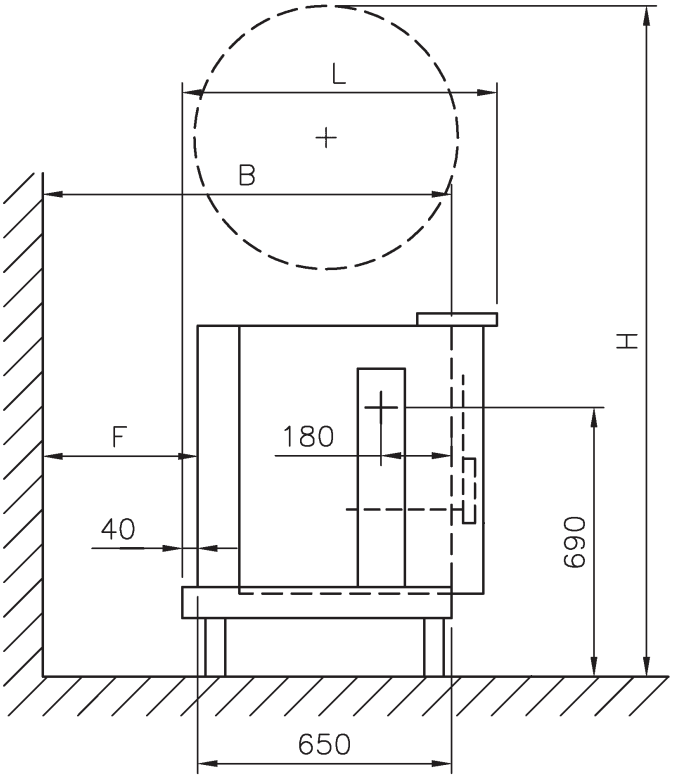

- Electronic heat control with turning knob
- Water fi lling into the kettle with cold water dispenser
- Automatic water fi lling into the steam generator when water level is low
- Indicator light for kettle in use
- Indicator light to indicate excessive pressure in the kettle/ overheating of heating elements

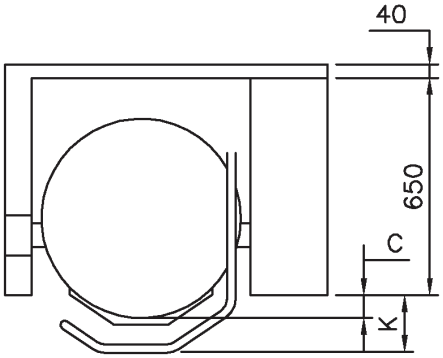

OTHER OPTIONS

- Drain valve/ Butterfly valve
- Rotatable lid
